Terrific for High Traffic

Unglazed ceramic tile stands tall against the harshness of everyday foot traffic, even if those feet carry grit, gravel and grunge. Better yet, it works great in floor/wall combinations, and you don't have to baby it. Just mop it clean and it's ready for tough duty again tomorrow.

Designed with a skid-resistant surface that withstands abrasion, unglazed ceramic is ideal for heavy traffic indoor and outdoor locations. Available in multiple colors, it complements any décor.
